Dear friend,

Kali Mat  
Almore U.P.

7.8.1956

It was very nice indeed to have your  
greeting yesterday - and Eric surely will  
appreciate your kind gift and thought  
of remembrance. He is at present  
with the Rameshkrishna folks in Almore  
but will call here again soon  
see was in Beniar for a few weeks  
and seem much improved - Pray to Son  
eye is still bungled, and asserting  
It is not easy to shed the western  
blinkers and values and be truly  
ego humble. We looked for you  
in vain to see you again in  
Almore - you would also well have  
called here once more before departing  
but we are glad you came - and having  
met really in love and Karma we  
are always together. In the holidays  
gaha is everything - and what we love  
is "ours" in a sense much deeper and  
truer than that of possession, legality and

Exclusiveness. It is our Self we love in everything: Only because of the Atman the beloved form and function is dear - So our thoughts and gratitude go into you.

There was one little thing we meant to have asked you if we had met: The loan of the negative of the picture you took of Sri Choudji and co. It has been a great success with the few we sent it to in India and abroad - and in our silence and solitude we do have a large correspondence. We could do with a dozen more snaps to send. If you prefer to have them done in Bareilly we will gladly send you the cost - or if you send negative we will return it to you if you wish.

We may find a few typed missives of our words bubble up and some friends like our bubbling.

3 The contemplations are usually  
so impersonal - but I believe copy  
can well be sent to women's  
friends - just a slice of humalaya  
consciousness. true to the moment  
Some appears in print in the monthly  
"The Call Divine" timed from Bombay  
by friends of ramana maharshi  
Surya Experiencing appears in July and  
August issue. and the title of one  
<sup>article</sup> just sent in is Prenatal or is it  
"Pre-ego: consciousness." This  
adwaita mode was somehow  
practised and lived in baby hood -  
the immanence - the integral  
Presence of Unity - and not two  
- This cannot really be asserted  
in words - and few words befit it  
They falsify - but one can play  
lightly in words - aware that it is  
play - . So aware our light play

4 no sticking in concepts or terms:  
symbols. The Real the Eternal  
Self is ever in and beyond mind.  
Thoughts and wordly assertion.

There fore our bounding and seemingly  
gaze humours - fun in word: play -  
we will send you a sample.

We love your sincerity - simplicity  
and love for children - and your  
genuine helpfulness and ability  
in the Swadhishtic Play, interplay  
and Self interdependence.

So our love go with you  
in Prajna Light and Karuna  
Rhythms - Brahma per titta

from your new India  
Surya Bhaskar

your  
with  
book.
