

Dear Brethren  
Fellow Pilgrims in  
Himalayan Consciousness.

We were glad to receive your Dewali letter with news of your Self, also the fine greeting, card - and not least the photographs, which now can be sent to friends for Christmas - so we scribble you a belated Dewali greeting and a Himalayan thank you - while there is time in our eternity - A Dr Sen from Patna is here - in the Wā Vihara Cottage (as usual in puja and Purnima times) - he is bachelor and self dependent and no trouble to himself or others - physically or psychically. But his ego's does talk! and we find no cause for writing. - Solitude and Silence are needed for Sahaja Samadhi and Self-controlled spontaneity in writing - so we <sup>only</sup> respond to his chatter - to our Self in that form and light awareness.

All our friends seem to be here  
 in the Surya Hridaya Gurha so  
 near and Real - and whole that words  
 and wardenies seem unnecessary. If one  
 inner stands what is there to stand under  
 or over? says Wiji. One can accept  
 bodyjis and egojis and be free in these  
 good good tools, as in ones travel and  
 tasks in the external world of actualities,  
 in which each has his due dharmic  
 task - destiny and prarabdha karma -  
 - So you are also here - a Himalaya  
 care-man - body freely, most freely and  
 at joyous ease - in communion with  
 Sri Himalaya -. Can you read my  
 scribble? We have trouble with typist  
 in Nainital, who can read it quite  
 well, but his skill is expensive -  
 and so is postage abroad -. Still this  
 printed matter goes relatively cheaply,  
 to Western-conditioned egojis, and they  
 are slaves of wily Himalayan couriers.

Are we not conscious, not  
rather than bodies and egos? <sup>aware</sup>  
The Spirit - the Self Christ rather than  
Persona: masks - the intuitive Self  
rather than opinion - belief and ego. <sup>just</sup>  
Sat, Chit, Ananda, Soham. Tat, Tvam, Asi.

We may not go down in viking  
raid on lovable egos this year.  
Plans make themselves, so we need  
not. - Travel, are bothersome and  
egos often discordant and cantankerous  
and it is so lovely serene here  
Himalaya understands and smiles -  
and Himalaya is within your Self -  
when once you have experienced The  
Light - the intuitive light of intuitive  
integral experiencing - ~~or~~ Self awareness.  
We are writing, when solitary, ~~for~~ the  
Western-conditioned friends, on  
the hippies - Beatles and flower folk -  
who threaten to invade Himalaya.

of in disease search of health  
and grace of psychic wholeness.  
an interesting phenomena and  
significant - Shambhara Nagar is  
at a safe distance from Sanyas-  
Caves - The Jishi body (77 last week)  
is well and bounding in Solitude  
Wuji spine, that it may well be  
pliable and serviceable for another  
20 years - of Himalayan Play -  
but no excess - tension or strain  
no dissipation in wordiness - say  
the Himalayan Wuji in the invisible  
Real - Self-controlled spontaneity  
we let things happen. Whether we  
as egos - live or die, we are in It -  
guided and used - in due Swadharna -  
we cannot go beyond the Centre - or out -  
side Sanyasa - yet the Within is also  
the Beyond - the ego-transcendent light.
