

Dear Dharmabhai

Kali Mat.

We are grateful to receive your letter of Jan 5.14 and to know you gracefully well in the life-play. Yes - our thoughts and blessings, have gone into you all the eternal while it much the clearer in the silent flashes within. All our friends are here safely in the Sanyas Hridaya-guha and the Real guru is within ego's and is not the external body, is not count body-measure, when the Real is body-free and ego-free. - Yes we are here at joyous ease and age-free servant free and word free as ever - not age less at 83, body less or ego less - but free in these good tools - "Wa"
 Grace is within your Self - and also omnipresent - and immanent in things and even in ego: souls. Awareness is all abiding awakening, in mature and integral consciousness is Being - Awareness - Grace also suffering our prakabha karma and due tasks among ego's. Sva Dharmas must be accepted in the tikishka mode of attitude and awareness - there is sure guidance - and intuitive Empathy, Ko-passion and Karuna: Love.

2 We are in lovely solitude and
word-freedom - within the Turya-
sanctaries - and writing a Wajiv
biography - We enclose some
recent scribbles - typed - If there
is too much dwelling on "Hippie titles"
that were rampant here during the last
few years - and during 1942 - on the
Kali mountain ridge and - sanctaries -
it culminated in break-in robbery -
rape and murder - at the top bungalow,
and now all the hippies have fled - and
Sun, Silence and pure Akasha are
all around us healing the wounds,
and expurgating the naga-lustric-sauric
"sins" - We have "no visitors" within
the sanctary - but usually go out in
the afternoon (twice weekly to always) -
and then may visit and respond to talk.
Silence is the language of the Real and
Being's rhythm is initiated and answered and
responded to by Indian brethren and fellow
way-lovers: our Self in this and that process
and function. a glad or friendly smile
and a mute namaskar = munda suffices.
Grace and gratitude from
