Dear Self ji

14

Himalaya - Thanks for a breath of  
Sri Himalaya, which came to join  
our Sat sang last Thursday evening --  
and partook in silent eloquence -

Yes, "Silence is the language of the Real"  
said Ramanaaji. It is the non-verbal-  
transmission - Not what we say or  
shout - or do, but what we are -  
that is awared by the feet awakened  
ones - consciously & unconsciously  
Self aware - fellow pilgrims in aware  
consciousness - Exist consciousness.

"Buddha (Siddharta Gotama) The Self-  
enlightened One was the awakened one  
enlightened in intuitive sight - and  
now fellow wayfarers stir in their  
sleep - dis-eased, and some awakens  
from their dream of "what ye call life"  
To the joyous state of Grace awareness in  
Sura Sila - Wm!

We have but little leisure for scribbling,  
to friends - but they are here in the  
species Stridaya Gaha - and some of  
them aware that "So 7 AM always, with  
ye", as also said the Jewish Emmanuel.
