

Dear Bhairji

November -

Greeting and grace from Sri Himalaya - -
Each Season here is the best, - when it is here, but
of the 6 seasons October November is the very best for
a well viking body and a Sanyasa no body, Sanyata ye
ken is spirit which like Wiji and so body free, sex free and
ego free - ; a death free no thing - men - Wji!

Here the untamed cherry trees are ablooming and the
tree = dahlias, which push up 25 feet, into heaven in
one rainy season, are also flowering in November.
Their mauve, lilac and roseate hued spray of blossoms
are a lovely sight against the pristine blue akasha.

The air is pure and so transparent, that the snowy Devi-
peaks, a hundred miles distant, seem to be very near,
just across the nearest ridge. Their breath is pure
and fresh but not cold and, at sunset tide, they glow
like bonfires for 15 minutes - There are very few
mechanical or human noises, - so we can enjoy the
self-radiant Silence and sink into it - Wji!

The book I AM THAT continues to be well appreciated
and acclaimed in the so-called West and also by
the few western conditioned psyches, - fellow way-farers,
who briefly sojourn on the Black Earth ridge and -
whom Wiji calls "Ex hippies" - Indian friends are not
so interested in the psychological or personal quest
and questions and so also not in the Gnanis' direct
and affectionate answers, - though these are pure
Adwaita Vedanta in essence, and abiding Self-awareness
and spontaneous living in intuitive light-radiance.

Christ - the indwelling Emmanuel says into ego's
 "So I AM always with you - so Be of good cheer -" So
 also this Viking Bhat, Emmanuel in the Singer or
 Turiya sanctuary - and Wiji - our Tulpa or spiritual
 Friend in the invisible Real, say the same into you.

27-11-1976

We have sent you many thank-yous for
 your letter - received some weeks ago - you write
 so clearly and well, whereas our mystic-scribble,
 and Viking - names, are not easily decipherable - - -
 we inflict the impersonal, typed matter on friends,
 we think-feel to our friends in affectionate awareness
 and do not remember if we have written them or not.
 Now, re-reading your good letter, we seem to have already
 sent you the addresses of friends, in Delhi and Panchaji,
 where we are likely to shelter - briefly in the plains.
 Also regarding a possible second - modern Viking - raid
 on the U.S. A. - see - Yankee Guys and Gals, in 1977.
 we make no plans or programs - or problems - no
 effort to influence events - but fit into the due
 provable karma with rather than will, & of lady
 rather ^{than} (resentfully or regretfully) - The Will is
 being done all the eternal while and all is
 well that seems most wrong to ego's - Wiji

Best wishes for you and yours - -

Blessings and Wiji's from Viking Bhat Emmanuel
 (and Sri Wiji in the invisible Real) in Singer.
